TEACHERS SATISFACTION REPORT (2016-17)

The IQAC of the college wished to include the faculties in its feedback system. Accordingly, ten number of teachers across both the streams were asked to participate in survey and register their responses on a sample survey based on questions from the Standard of the students, their zeal and punctuality and responses inside the classroom and their participation in curricular and extra curricular activities. Most of the faculties gave impressive feedback the zeal and enthusiasm, sense of respect to students and organizational ability. Similarly the majority of teachers to expressed satisfaction over students participation in extra curricular activities. However most of them opined that the standard of students in English and their ability to communicate in the language is rather poor. They recommended some training or orientation to overcome the lacuna- a point the IQAC of the college has noted for further action. It was realized that the poverty is the biggest hindrance before the rural young masses in pursuing their higher studies. They opined for more and more financial assistance to encourage the stakeholders
